EVERY voter in the United States again owes a debt of patriotic gratitude to President ROOSEVELT. No one knows the average Senator and Congressman better than Mr. Roose-VELT and that there are scorces of them steeped in vice and graft, the President and the Secret Service are well aware and they can be spotted at any time. There are a lot of Congressman now scared half to death at what our President had to say in his message. There is already talk to the effect that Congress is not nearly so wrathy as it was the day the message came in and as the days go by it may be expected that by the time the Committee reports, the "censure" of the Executive will not have to be written on asbescos. The Congressmen learned that Chief WALKIE of the Secret Service was in conference with the President several hours Friday. THEODORE ROOSE-VELT means business, while the other fellows are only out for a good time and the salary tied to the job.

Many hearts were saddened yesterday evening when the news was 'phoned over the county, "John Bruce Woodward is dead." In September of this year John Bruce Woodward entered State University in the mechanical engineering course. He had been there less than two months, when in the gymnasium one day he ruptured a blood vessel while using the lung tester. On examination his physician discovered tuberculosis to be the seat of his trouble, then pnuemonia followed, through which he made a heroic fight for life. As soon as he was able to leave the hospital, he was conveyed to his home, only to die in peace, surrounded by his loved ones, prescribed for by his faithful physician who had ministered to him from infancy and cared for by his proficient nurse. Besides his sister, who sees life so dimly through her veil of tears, and his dear degrandparents, he is mourned for by his uncles, Messrs.
